Railroad Officials Notified That They Must Supply the Demand.

Railroad Officials Notified That They
Must Supply the Demand.

REPUBLIC SPECIAL.

Austin, Tex., Oct. 31.—As a result of the recent action of Texas railroad officials in failing to furnish cars for freight when domanded by the shipper and in one or two special cases where the money has been tendered in advance for the cars and refusel, Railroad Commissioner Storey to-day addressed a letter to the officials of the supplementation of the proper application for cars.

This refusal of cars is getting to be quite common of late, owing to a car famine. The railroads of Texas never before had the freight to handle they have now, immense cotton shipments and other heavy tonnase have served not only to use all the available cars, but also have seriously crippled the passenger business, by reason of the fact that the roads are using all the engines that they can possibly get for freight business, leaving the passenger department to do its best with older, light engines. As a result, trains in almost every section of the State are being operated on "way-behind" schedules.

"Back Into the Fold."

An article under the above head was published in these columns on October II, which, it has since been learned, was a great injustice to Mr. E. P. Turner, general passenger agent Texas and Pacific Railway, bailing, Tex. Apparently the passenger agent quoted by The Republic was somewhat prejuniced. On the maximum penalty for dealing with ticket brokers being raised from \$390 to \$1.000, and Mr. Chariton of the Transcontinental and Mr. MacLeod of the Western Passenger Association being added to the Conference Committee, Mr. Turner re-entered the association, as he had agreed to do. It seems Mr. Turner has always said that he would not be satisfied with a small penalty where a general passenger agent was caught dealing with ticket brokers. He has made no seeret of his convictions, stating openly and constantly that he would prefer a penalty of \$1.000 for a willful violation on the part of a general passenger agent.

the interval was lengthened to thirty minutes. At the same time the space between
cars from De Hodiamont to Clayten,or to the

reduced from twenty to fifteen minutes.
It is said that the officials of the cumpany
are contemplating other retallistory measures against the town of Kirkwood for imposing a tax of \$6 apiece on each of their

been established by the Circuit Court, the
officials think that they can better circumvent their enemies by reducing the
number of cars that run through the town,
instead of carrying the question to a higher

ed, was delayed eccause of my continuous absence from home. Allow me to assure you of my appreciation of the confidence capressed by the league. My speech delivered at Indianapolis August 8, in response to the Democratic Committee, set forth my views on imperialism more fully than I could do by letter. I need not relierate them here.
